These Challenges Have Huge Implications

51%	**3%**	**78%**	**80%**
of users spend time on mundane and repetitive tasks	of companies can fully capitalize on the customer data they collect	of customers will back out of purchase due to poor experience	of companies experienced increased operational costs

The Solution

Empower your workforce with Digital Workers powered by Robotic Process Automation (RPA) and AI to automate all manual, repetitive, and low-value work. These digital workers operate 24/7, 365 days a year, allowing your knowledge workers to focus on high-value tasks.
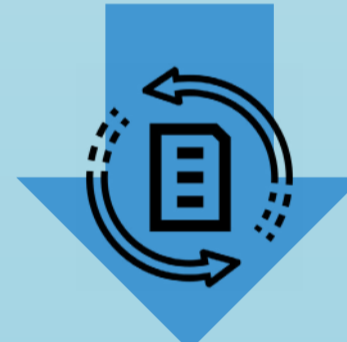

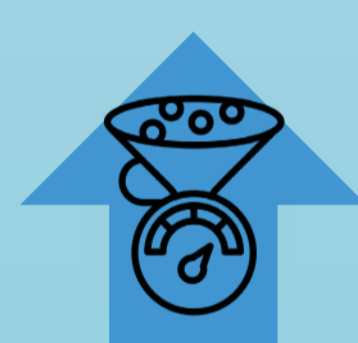

Benefits?

- **Reduced Operational Cost**
- **Boosted Productivity**
- **Reduced Processing Time**
- **Increased Throughput**
- **Minimized Human Errors**
- **Scalability on Demand**

Why Prolifics?
Your Partner for Rapid Automation Advancement

Prolifics Digital Workers Accelerator Kit
AI-driven decision making that propels your organization forward.

What is it?
A catalog of reusable pre-built Bots designed to execute specific tasks within end-to-end business operations, tailored for each human worker's ROLE. This innovative kit ensures tangible OUTCOMES backed by quantifiable metrics such as volume, speed, & time.

What are the benefits?
1. Operational excellence & unparalleled user experiences
2. Liberation of human workers from mundane and repetitive tasks; emulation of their activities
3. Enhanced performance through advanced AI/ML techniques
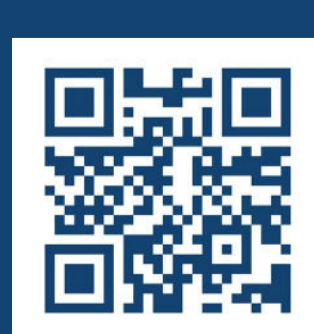

Sample pre-built digital workers

- Loan Processor
- Claims Benefits
- Employee and Customer Onboarding
- Accounts Payable/Receivable
- Claim Adjudication
- New Account Opening
- BSA/AML Due Diligence
- DevOps Engineer
- IT Support

Above are just a few examples of pre-built bots that customers can leverage and customize to suit their specific needs and requirements.

"Let us join forces in boosting your digital workforce through the power of RPA and AI. Together, we can automate operations, supercharge productivity, trim costs, and create exceptional experiences for your employees and customers.
